Frequently Asked Questions

PRE-START MEETING QUESTIONS

Q. What do I need to do before my prestart meeting?

A. Once we have received your signed formal contracts returned, we are then able to discuss available dates for your prestart meeting. If you are one of our Luxury or Custom specification clients and have an Interior Designer Consultation included, available dates for this meeting are also booked at the same time for a date before your prestart meeting. We require you to complete your meeting with Intelligent Home to discuss all of your "smartwiring" selections and any National Broadband (NBN) requirements, and your tiling selections before your prestart meeting can commence. This allows your prestart consultant to prepare for both of these selections to discuss in the meeting.
